6. **Successful Sampling Tips**

- Giving a sample gift of an X39™ can change someone’s life... and change your business too!
- This is a powerful and proven process used by many of LifeWave’s most successful leaders and teams to engage and enroll new Customers and Distributors
- You can increase your success in getting people to watch our compelling videos by offering to provide them a Free X39™ sample
- We recommend that you do NOT send a sample until after they have watched a video from your InTouch App. Say something like: *“I’d be happy to send you a sample... but first I’d like to send you a short 3-minute video. If that interests you, I’ll be happy to you send you a sample.”*
- Experienced samplers have experimented to find the optimum number of patches to give: One is usually best!
- When you follow-up, be sure to offer them the LifeWave 30-day Risk Free Trial
- Some feel it fast... some feel it slow... but we know that X39™ always begins to work at the cellular level for everyone from the very first day

7. **Getting Started Guidebook and Video**

Check both of these out if you want to learn more about our Proven Plan of Action and take your business to the next level.

- Scroll down to Step 7 and download the Getting Started Guidebook
