

*'This patch breaks
every imagination'*

'Thank you so much for this wonderful patch. I feel a tremendous amount of energy until late in the evening and then my **sleep is fantastic.**

Since I get back pain from time to time because of a disc prolapse, I have experienced an **immediate pain relief within seconds within a day.**

Another experience was that a small sore on **my lip caused by herpes had almost healed within a day.'**

*‘Wow, this patch is really strong
and a new level of energy
flowing through the body,
I am impressed.’*

‘When I first patched LifeWave X39 on my 3rd eye I felt 5 minutes a warm pressure on it as if somebody would hold his thumb on my 3rd eye.

My eye is definitely less burning already after three days. So really thrilling what will happen to it after a whole month.

Just with one single patch, that is really amazing!’

-Jan Wiegel

‘My physiotherapist is amazed!’

‘My recovery from a lower back injury has been **extremely quick. My physiotherapist is amazed!**

When X-39 is on the point of pain the pain **simply disappears.**

Over the last two nights my **sleep** has been way **deeper.** I fall asleep straight away.

I NEVER previously had to be woken by my alarm clock, but I was glad of it this morning otherwise I would still be asleep - **this is amazing.**

I feel **great** now as a result of my quality sleep.’

‘Draw from an inexhaustible source of energy’

“It is with joy that I share my experience on the X39 with the hope that it can be a stimulus for everyone!

I’ve been using the X39 for now three weeks and they’re amazing! I can enclose them in one sentence: **‘to draw from an inexhaustible source of energy’**. The energy is never lacking but living the day without feeling drops of tiredness, with a clear mind and a light out of the norm was really a discovery!

Infinitely grateful to be able to share this wonderful opportunity with the world... that needs so much **‘Light’** !!!”

- Raffaella Ruggiano

'I have been using the patches about 35 days and I am amazed with the performance.

The X39 patch is **restoring feeling to my feet!** I have had progressive neuropathy for over 25 years, to the point I could barely feel my hand touching my skin anywhere forward of my ankle.

On the sole of my foot, I could feel nothing a month ago, today I can feel gentle touch up to the base of my toes, with measurable progress every single day for the last two weeks. I am shocked!

The new feelings are quite a surprise and delight. Already, the **change positively affected how I walk.** The experts say this is not possible. Thank you!!!'

*'I'm really speechless how fast
and effective the X-39 works'*

'My sales partner Dagmar came to me for a barbecue and complained of very strong knee pain, what can I say, after 3 seconds her pain reduced to 0.'

'My gardener injured his ankle in my back garden on some barbed wire. 4 days later he came to me and told me about it I had a look at the injury. It was a horizontal cut of about 10 cm in length on the outside of his ankle. It was very red and swollen open wound.

I stuck the X39 on the injury and after just one day the redness and swelling had disappeared and the injury looked like it was almost healed.'

- Siegfried Wölfl

'Athlete while jogging in the forest sprained his ankle and patched X39 on the swelling on the ankle and was pain-free after 20 seconds. After 30 minutes, the swelling had completely disappeared and my friend was able to fully put weight on his foot, up to this day.'

***‘I have been using LifeWave X39,
for a full week now and I love it!!’***

‘Even though I use the Y-Age system on a regular basis I had begun to have little aches in my hips and lower back. They only occur when I am driving and just get out of my car or riding and I jump off the horse. I had begun to think oh no I’m 54 and getting those “old” aches and pains. Within just a couple days of wearing the LifeWave X39 those aches, and pains were gone!

They have not returned. I have more sustained energy during the day and I am sleeping even better at night. I didn’t think I could sleep better given the fact that I wear Alavida, but I am sleeping even better.

Thank you for this truly awesome new patch!’

‘I can enjoy playing badminton again’

“I have not played my favourite game for several years because it hurt my hip, some 10 years ago X-ray and medical consultation showed degeneration of the joint. The operations of both knees gave effect.

After the first training, I felt hip pain, but after patching the X39 I completely forget about the problem. Hip **regenerated quickly**, I can go back to the badminton court!

There are no words that could describe it. I am **grateful** for Lifewave and David Schmidt!”

- *Krzysztof Markowski*

*‘My pain finally went away
adding the X39 patch’*

‘I’ve been in Europe on a biking tour (270 miles) from Prague to Budapest. I have had lower back/hip issues since last year and have had adjustments to prolozone injections which helped improve up to 60%. The lingering pain finally went away adding the X39 patch within two weeks.

I was concerned how my back was going to get during the biking trip and it didn’t bother me at all other than tightness. It was one of our favorite trips.

So, I was really happy i didn't have back/hip issues.’

'85% reduction in Pain... Skin is not as Dry'

"The first day I received the X39 I had just finished a very rigorous 50-mile bike ride and I had strained my right knee to the point where I couldn't put my weight on it all the way - I was limping.

So, I immediately put a patch on and I was thinking to myself, gosh I wonder how long this is going to take to recover from and to my surprise the very next day I was able to ride again where I thought I'd be limping again for a good week or more so that was very exciting.

From there I continued to use the patch both on the recommended spots... and also directly on my left knee which has had chronic tendonitis and bursitis probably for about 5 years mostly because I won't stop and rest as I should, but I have seen **great improvement** in that.

I would say an **85% reduction in pain** there and my overall stiffness in my **spine has improved** and my skin is **not as dry as it normally was** so all in all very excited with the response I've received in just the 3 weeks I've been using it."
