

An aerial photograph of a mountain range at sunset. The sky is a warm, golden-orange color, and the mountains are bathed in the same light. Thick white mist or clouds fill the valleys and lower slopes of the mountains. The foreground shows a dense forest of green trees. A semi-transparent bokeh pattern of light-colored circles is overlaid on the upper portion of the image.

Introducing the LifeWave

Aromatherapy Mists

LifeWave Shine & LifeWave Dream Aromatherapy Mists are your new must-have morning & evening essentials, so let's do a quick overview of the benefits of each product.

LifeWave Shine™ Benefits

Every day is your day to shine.

LifeWave Shine aromatherapy mist is a blend of natural herbs and essential oils embedded into a proprietary energized and structured water allowing for rapid results.

- Encourage feeling of overall wellness and energy
- Instant invigorating aroma to help awaken the senses in the morning
- Helps create a focused energizing boost for the day ahead
- Let the invigorating aroma give you a pre-workout boost

LIFEWAVE
SHINE[™]
Aromatherapy Mist

LifeWave Dream™ Benefits

Beyond your wildest dreams.

LifeWave Dream aromatherapy mist is a natural blend of calming ingredients that create a zen-like environment and promote feelings of peace at bedtime as you unwind and relax.

- Encourage feelings of rest and relaxation
- Soothe your senses with a peaceful aroma
- Creates a calming ambiance for your bedtime routine

LIFEWAVE
DREAM[™]
Aromatherapy Mist

Key Ingredients

The LifeWave Aromatherapy mists are infused with a science backed blend of natural ingredients.

Key Ingredients

Both LifeWave Shine & LifeWave Dream contain Canadian Pine Pollen & Tongkat Ali

Canadian Pine Pollen

Canadian Pine Pollen contains over 200 nutrients, including plant hormones that are known to impact upon immune system activity, and stem cell growth. It also contains Glutathione, known as the bodies 'master antioxidant' and Superoxide Dismutase (SOD), an antioxidant made in the mitochondria that is a powerful anti-inflammatory involved in tissue repair.

Tongkat Ali

For centuries, people have used Tongkat Ali for its purported testosterone, strength, and energy benefits. A study evaluating the testosterone promoting benefits of Tongkat Ali also discovered higher levels of energy and physical strength among athletes taking a Tongkat Ali supplement compared to those not taking the supplement.

Key Ingredients

Polyrhachis Extract

Polyrhachis Ant (Black Mountain Ant) Extract is one of the premier ancient Chinese tonics, with a history of use spanning 3000 years. It has been named the "Herb of Kings" and for good reason, it is a nutrient dense superfood, containing a large amount of protein, vitamins, minerals and potent antioxidants.

Blue Spruce Oil

Blue Spruce essential oil soothes tired muscles when applied topically with massage, enhances masculinity, and has a grounding aroma that is perfect for use in your spiritual practice.*

Ginger Oil

Ginger Oil is known to reduce feelings of lethargy, agitation and fatigue.

Sage Oil

Sage Oil is known to stimulate and clarify the mind while exhibiting an uplifting, soothing, and strengthening effect on the senses to ease negative moods such as fatigue.

Key Ingredients

Mucuna Purines

Mucuna pruriens is a tropical legume native to Africa and tropical Asia and research has shown that this ingredient has been known to help boost dopamine levels in humans and improve sleep quality.

Jasmin Oil

Jasmine is a strong relaxant and very calming to the brain. Studies have shown that jasmine oil is a natural sleep aid that helps the brain release more Gaba, a chemical that promotes rest and relieves anxiety.

Lavender

Lavender is known to have a calming affect on the central nervous system and can promote a slow-wave sleep, helping you sleep longer and better.

Clary Sage

Clary Sage can help to alleviate stress by inducing a sense of well-being. Studies have shown that clary sage may reduce cortisol levels and since cortisol impacts circadian rhythms and appears to be tied to alertness, reducing cortisol may promote sleep.

DREAM

Aromatherapy Mist

Key Feature

LifeWave Aromatherapy Mist products are made with a proprietary energized and structured water.

Specially selected natural ingredients are placed into a base of distilled water and ethanol. These are processed with a proprietary process, developed by LifeWave CEO & Founder, David Schmidt, that alters the structure of the water, creating micro-clustered water structures, thus improving the delivery of the ingredients.

How to Use

Spray on wrist and inhale to enjoy the scent.

Use Shine in the Morning and Dream in the Evening before bed.

A scenic landscape of mountains with a grid overlay and clouds. The background features a range of mountains under a warm, orange-hued sky. The foreground shows lush green hills and valleys filled with white, misty clouds. A semi-transparent grid pattern is overlaid on the upper portion of the image. The text 'OUR PRODUCT OFFERING' is centered in a white, serif font.
