X39®

MEET X39

Backed by science, supported by years of research, X39 represents a new era in wellness.

Pair X39 with LifeWave X₂O to support your wellness from the outside in - and the inside out. One activates light through the skin, the other delivers it through hydration. Together, they create a wellness routine.

Our bodies are masterpieces of design, holding the potential to bounce back better than ever. With X39, we achieved something remarkable in the field of wellness and science that others could not. By utilizing LifeWave's unique patented technology, X39 uses light to elevate GHK-Cu, a copper peptide known to support overall health and wellness. Unlike traditional light therapy, which requires external light sources, X39 uses the body's own infrared light to naturally increase vitality.

By gently stimulating the skin with light, our non-invasive, non-transdermal X39 Patches help you conquer your active lifestyle and pave a new way to vibrant health.
